NOTE FOR: EA/DDI
SA/DDO
EO/DDS&T

As you may have heard, a number of penetrating questions were asked recently -- by me and by quick-thinking officers in each of your Directorates -- about a proposed meeting between the Deputy Director and an individual from the electronics industry.

As a result of those questions, and the quick reaction of these officers -- especially their candor, the meeting has been cancelled.

Please pass on to these officers and their parent organizations my thanks for helping to sidestep a potentially bad scene:
